

Such a Shame

Kingdom Come

So bored and very tired, hearing your clichés
You drowned our magic fire, it's love you did betray

So sad but almost funny, watch you playing games
Won't settle for the cherry, you want the biggest cake

I've had enough my princess, don't care anymore
I wish that I had never, walked in through your door

At first you seemed so loving, so carrying deep inside
But now you're reckless shoving, is eating us alive

It's such a shame, what you became
A foxy lady chasing fame

It's not for me, I'll set you free
I hope some day you

I tried to find some answers, tried to break the hook
But now I know that leaving, is all it really took

Stay busy chasing money, the glamour on your mind
Preventing you from thinking, about the sense of life

It's such a shame, what you became
A foxy lady chasing fame

Just play your cards, you're such a star
You just continue dropping names

It's not for me, I'll set you free
I hope some day you will be
