

## Tease

### Kingdom Come

You, make me crazy and I don't know why  
You, got me working for another night  
You always keep me waiting  
You push me to a frenzy  
Now I know a better way  
I won't take this another day

Your special touch, gives me so much  
Why do you fight, when it seems so right  
You outta know, you gotta take a chance  
Why can't you see, someday you will know

Still I wanna tell you, you don't even have a clue  
Never was another way  
You're missing, what you have today  
You're living in another world  
Using me for all your thrills  
Look at me and face the news  
Can't you see, you're gonna loose

You're living in another world  
Thinking you're the only girl  
Girl, you're just so hard to please  
You're nothing but another tease
