

Balance Of Power

Kingfisher Sky

Night falls, nothing here
but the light of the moon
We stand alone in the sand
we feel it crawl
The sky is changing by the hour
slowly shifting the balance of power
Arms wrapped around us in bolts of light
my heart it thunders in the dead of night
The wall between us crumbled down
blew away with the sand
Beneath the night time sky
naked we stand

The sky is changing by the hour
slowly shifting the balance of power
Arms wrapped around us in bolts of light
my heart it thunders in the dead of night

The sky is changing by the hour
slowly shifting the balance of power
Arms wrapped around us in bolts of light
my heart it thunders in the dead of night

The sky is changing by the hour
slowly shifting the balance of power
Arms wrapped around us in bolts of light
my heart it thunders in the dead of night

The sky is changing by the hour
slowly shifting the balance of power
Arms wrapped around us in bolts of light
my heart it thunders in the dead of night
