

Give me a reason why you think that you can change the world with your words
and turn them into you.
Just calm down and take a second to breathe, let your anger out
and just sing
with me
Everybody lives everybody dies. It's so hard to get that through your mind.
Everybody lives everybody dies. It's the anthem of our kind.

Give it up just give it up. You've taken so much and you've given none.
Live it up just live it up. You've taken so much and you've given none.

Just because you misread the words that you live by
doesn't mean that another can't interpret it another way.
If you live for something you can't see,
I believe you can handle it if they disagree. You think that your message isn't
getting through.
Well it is so just stop what you do.
You think that your message isn't getting through.
They all hear you they just don't want to.

It feels like I'm shouting these words for nothing.
Yelling them out into the air
Just because I compare your beliefs to nothing
doesn't mean you shouldn't care.

The reason that I said you weren't enlightened wasn't that your message wasn't
clear.
The only reason that I am fighting is because I won't adhere.

I won't adhere to your selfish fucking lifestyle
I won't adhere to your negative approach
The only reason that I stand up fucking fighting
Is because I need to stand up for the ones who won't.
