

# Back Down South

Kings of Leon

Come on out and dance  
If you get the chance  
We're gonna spit on the rivals  
All I wanna know  
Is how far you wanna go  
Fighting for survival

Underneath the stars  
Where we parked the cars  
Ain't showing signs of stopping  
Pretty little girls  
Naked to their curves  
Ready to lay in a coffin

If you wanna go, I'm gonna go  
I got a fire burning  
Go on take my hand  
When we see the band  
Baby's gonna be a big one, oh yeah  
Baby's gonna be a big one

When you see the lights  
And we hear the fights  
It's gonna be a stunner  
I've got something here  
If you give me one more beer  
I'm gonna call a runner

I don't wanna say what I have to say  
Babe I'm a' kicking off now  
If you wanna go, I'm gonna go  
I'm going back down south now  
I'm going back down south now  
I'm going back down south now

If you wanna go  
I'm going back down south now  
Come on take my hand  
I'm going back down south now

When you see the light  
And we hear those fights  
I'm going back down south now  
All I wanna know  
Is how far you wanna go  
I'm going back down south now

I'm going back down south now  
I'm going back down south now  
I'm going back down south now
