Kip Moore

Nashville country nights, Detroit rock city lights
Arizona, California,
Texas desert, a green bay blizzard, Indiana, Louisiana

Lotta road lotta miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, hop in out of the cold.
Itchin to get my fix and kiss your lipstick.

Carolina north and south,
Alabama, Chi town, Dakota, badlands, the heart of the heartland
s
Way up above Dixie, Boston, Jersey, New York city
Spokane to Denver across the plains
Hills of Virginia, coastal man

Lotta road lotta miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, hop in out of the cold.
Itchin to get my fix and kiss your lipstick.

Georgia peaches florida's beaches
A million dots on the map but theres only one that brings me back

Lotta road lotta miles just to feel your smile
Girl I wanna touch you while I kiss your lipstick
Around the bend down the road, hop in out of the cold.
Itchin to get my fix and kiss your lipstick.
