

Running for You

Kip Moore

We had a good run
But I knew, I knew, I knew
I knew this day would come
As bad as I want to
Ain't no way, not me girl
I ain't gonna stop you

But if the rain stops falling, falling on you
And your heart stops breaking, breaking in two
If the light starts fading, baby don't move
Just say my name, stay right there
I'll come running for you

I'm gonna miss you
Baby there's no way that I can go with you
So go on and chase it
I know, I know, I know
You can almost taste it
Yeah, time's a wastin'

But if the rain stops falling, falling on you
And your heart stops breaking, breaking in two
If the light starts fading, baby don't move
Just say my name, stay right there
I'll come running for you

It's gonna be a long night
And I might shed a tear
But I'm a be alright
