

Monster

Kip Winger

I had the impression
That deceptively
You dress down so no one
But the monster sees
The sound I'm hearing
It must be a sign...

Now my monster is on to you
Now my monster is on to you
And you knew it would come to you
Now the monster lives on in you

Believe in me
Like vampire bait
So naive
Only the monster sees
Your dragon fly
Must be a sign

Now my monster is on to you
Now my monster is on to you
And you knew it would come to you
Now the monster lives on in you

And if you use me
I would like it
I can't help it
Only hide it
There's no way out...

The sound I'm hearing
It must be a sign
..must be here...
..must be a sign...
Not to leave you here

Now my monster is on to you
Now my monster is on to you
And you knew it would come to you
Now the monster lives on in you

One soul through me to you
Passes unwanted truth
One laugh, one cry away

I had the impression
That deceptively
You dress down so no one
But the monster sees

No one but the monster sees

You see what you want to see

In me...
