

A little more work

Kira Isabella

Every mornin'
You show up at the farm
Tattoo on either arm
And give my daddy 8 long hours

I can see you steal a glance
Every single chance
Hopin I'll be at my window
When the barn door's fixed and the hay is cut
The sun is set and you're packin up
And you think I'll jump right in your truck
You're just gettin started

Still
Got a little more work to do
Before you sweep me off my boots
Sorry I don't fall that easy
I need more than a hey there baby
Don't think for a minute you'll play me
Tell ya right now boy
You're gonna have to beg for a kiss or two
You still got a little more work to do

I admit when you take off your shirt
And get down in the dirt
It's hard for me to look away
But I wanna know there's more than that
Underneath that baseball cap
So show me at the end of the day

When you finish all my daddy's chores
And you come knockin at my door
Be ready to work a whole lot more
You're just gettin started

You still
Got a little more work to do
Before you sweep me off my boots
Sorry I don't fall that easy
I need more than a hey there baby
Don't think for a minute you'll play me
Tell ya right now boy
You're gonna have to beg for a kiss or two
And you still got a little more work to do
Yeah, you still got a little more work to do

You still
Got a little more work to do
Before you sweep me off my boots
Sorry I don't fall that easy
I need more than a hey there baby
Don't think for a minute you'll play me
Tell ya right now boy
You're gonna have to beg for a kiss or two
You still got a little more work to do

I need more, more than a hey there baby

Don't think for a minute you'll play me
Tell ya right now boy
You're gonna have to beg for a kiss or two
You still got a little more work to do
You still got a little more work to do
