

A Night Like This

Kira Isabella

I stepped out for some fresh air
I guess I wasn't paying attention
I bumped into you as you walked in
Made you spill whatever you were drinkin'
We took a walk outside by the fire
Talked all night
Then you looked into my eyes

Every girl wants a night like this
Full moon, first love, first kiss
A Luke Bryan song playin' on the radio
Somewhere in the distance
We could just let the night end
Walk away from the feelin'
Or take a chance, tonight, first kiss
Every girl wants a night like this

You said you were sorry
Cause you bumped into me on purpose
Had to find a way to break the ice
But something's telling me it was worth it
I didn't come here to meet someone
But I wouldn't mind if you walked me home tonight

Every girl wants a night like this
Full moon, first love, first kiss
A Lady A song playin' on the radio
Somewhere in the distance
We could just let the night end
Walk away from the feelin'
Or take a chance, tonight, first kiss
Every girl wants a night like this

Oh oh oh

Take my hand
Pull me close boy
One more kiss like that
Make it hard to say goodnight

A Luke Bryan song playin' on the radio
Somewhere in the distance
I just can't let the night end
Turn away from the feelin'
Take a chance, tonight, oh oh oh
Take a chance, tonight, first kiss
Every girl wants a night like this
A night like this
Every girl wants a night like this
