

# Gone Enough

Kira Isabella

My friends tell me  
That you were hangin all over  
A brunette last Saturday  
I didn't wanna believe  
But now you're telling me  
You needed a little more space

Well let me help you out  
Baby how about

Gone  
How about so long  
Forgot about you, were through, I'm moving on  
How about I pack that truck  
Pop that clutch  
Leave you here in a cloud of dust  
You said space, but you didn't say how much  
Is gone enough  
Is gone enough

You probably thought I would be  
Your pretty little plan B  
Just waitin around  
You don't want me checkin in  
Breathing down your neck  
While you're out on the town

Well let me help you out  
Baby how about

Gone  
How about so long  
Forgot about you, were through, I'm moving on  
How about I pack that truck  
Pop that clutch  
Leave you here in a cloud of dust  
You said space, but you didn't say how much  
Is gone enough  
Is gone enough

Well I ain't gonna give you the third degree  
If you need a break, that's fine with me  
Yeah, a little more room to breathe

What about gone  
How about so long  
Forgot about you, were through, I'm moving on  
How about I pack that truck  
Pop that clutch  
Leave you here in a cloud of dust  
You said space, but you didn't say how much  
Is gone enough  
Is gone enough  
Is gone enough  
Is gone enough
