

I Can Love You Better Than That

Kira Isabella

I know she can love you
And make you love her back
Have you tied about her finger
And let go just like that
I know she'll steal your heart
And tear it up into
Give it back when she's had enough
And say "this belongs to you"
Don't give her that chance, don't you fall fast
Why don't you run while you still can?
I know you don't see
What I can see
Everything that we could be
I got my eyes wide open
Waitin' when she hopin' that
I get my chance
Cause I can love you better than that
Someday, she's gonna leave you
And turn back around
I want her to walk in and see I have you now
I'll never gonna let you go
Not after end this road
She'll never love you like I can
Don't give her that chance, don't you fall fast
Why don't you run while you still can?
I know you don't see
What I can see
Everything that we could be
I got my eyes wide open
Waitin' on she hopin' that
I get my chance
Cause I can love you better than that
I know she'll steal your heart
And tear it up into
Give it back when she's had enough
And say "this belongs to you"
Don't give her that chance, don't you fall fast
Why don't you run while you still can?
I know you don't see
What I can see
Everything that we could be
I got my eyes wide open
Waitin' on she hopin' that
I get my chance
Cause I can love you better than that
