

## Songs about you

Kira Isabella

Another sleepless night, with the radio  
Alone here in the dark, just trying to let you go  
But every song I hear, just makes it worse  
It's time to shut it down and turn off all this hurt

I'm done sitting here wasting my breath  
I'm done beating this thing to death  
It don't change nothing,  
It just keeps you on my mind  
I'm done dragging this pain around  
Just holding me back weighing me down,  
Yeah I'm through singing songs about you

I opened up my heart, I gave it all I had  
Didn't do me any good, and it didn't bring you back  
So this is the last time, I'm going to bring it up  
What else can you say, when you've already said too much

I'm done sitting here wasting my breath  
I'm done beating this thing to death  
It don't change nothing,  
It just keeps you on my mind  
I'm done dragging this pain around  
Just holding me back weighing me down,  
Yeah, I'm through singing songs about you

And me and how good it was  
How I miss you baby  
I can't live without you  
Love you, need ya, want ya  
Come back home

I'm done sitting here wasting my breath  
I'm done beating this thing to death  
It don't change nothing,  
It don't change nothing  
I'm done dragging this pain around  
Just holding me back weighing me down,  
Yeah I'm through singing songs about you

I'm done beating this thing to death  
It don't change nothing  
It don't change nothing

I'm done sitting here wasting my breath  
I'm done beating this thing to death  
It don't change (nothing)  
I'm through singing songs about you
