

When You Fall

Kirk Franklin

When you fall
There are angels there
To catch you when you fall
There's a saviour who
Can hear you when you call
When you fall

When you cry and you cannot
Figure out the reasons why
Know that weeping only endures
For a night
When you cry

When you fall
Know that God will never take his love away
He is faithful to his people come what may
Here me Say
When you fall

When your heart
Has been shattered by the storm and
Torn apart
And you wonder when will the healing ever start
For your heart

Don't you know
That He loves you too much to ever let you go
And the storm is there to only help you grow
He loves you so
When you fall

When you fall
There are angels there
To catch you when you fall
There's a saviour who
Can hear you when you call
When you fall

When you cry and you cannot
Figure out the reasons why
Know that weeping only endures
For a night
When you cry (when you cry)

When you fall
(Know that God will never take his love away)
Love away
He is faithful to his people yeah
(Come what may)
(Here me say)
When you fall
Fall

Don't you know
(That he loves you too much to ever let you go)
Let you go
And the storm is there to only help you grow

(Help you grow)
He loves you so
(Loves you so)
Oh when you fall
When you fall
When you fall
