

Keep It Trill

Kirko Bangz

I just wanna (I just wanna)
I just wanna (I just wanna)
Lay it..lay it down (lay it down)

I'm doing thangs I never did before (did before)
Slippin on my pimpin (pimpin, pimpin)
You hearin thangs you never heard before (heard before)
But I say girl you trippin
You know I'm out here with all of my niggas baby
We ain't doing no trippin baby (trippin baby)
So why you tryna play me?
Cause if you read between the lines,
Your past is bad as mine
So baby let's keep it trill (trill)

Now girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping you (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass niggas talkin' bout me
Everywhere you go, there's another hoe
you like how she know she abide me
she say, I know you doubt me
But just to keep it trill
I heard about you too
So babygirl let's keep it real

Oh, these 2 women looking real fine
And I can have them to myself (to myself, to myself)
But now this girl blowin up my line
But shit she talkin to herself
She say, you can run the streets with your thugs
I'll be waiting for you, (you)
Until you get through (get through)
But don't say it if you ain't bout it babe

Now girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping you (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass niggas talkin' bout me
Everywhere you go, there's another hoe
you like how she know she abide me
she say, I know you doubt me
But just to keep it trill
I heard about you too
So babygirl let's keep it real

I just wanna lay it down baby,
lay it..lay it down baby
Lay it down baby, lay it..lay it down.
I just wanna lay it down baby, lay it..lay it
down baby...they don't know (know, know)

Don't listen to, what the people say

They don't know about, bout you and me
Get it out your mind, cause it's jealousy
They don't know.

Now girl I know you got me (got me)
You know I got you too (got you too)
Them other women they be bopping (bopping you)
But girl I'm feeling you, baby
I know you doubt me
Hatin' ass niggas talkin' bout me
Everywhere you go, there's another hoe
you like how she know she abide me
she say, I know you doubt me
But just to keep it trill
I heard about you too
So babygirl let's keep it real
