

Reach for Me

Kirsty Hawkshaw

Reach for me
Don't wanna wait another day without you
Take me to higher ground
We'll be safe and sound
Reach for me

Should've known right away
When it felt too good to be true
Cuz you've never said
What u mean to say
Anyway you look at it, I'm confused
If you can't see where this is gonna lead,

Reach for me
Don't wanna wait another day without you
Take me to higher ground
We'll be safe and sound

Come on, reach for me
I can't wait another day without you
Take me to higher ground
We'll be safe and sound
Reach for me
Just reach for me

I've got it all figured out
You decide what's best for you
Cuz u will build me
So don't let me down
I can't make you do
What u don't want to
If u can't see where this is gonna lead,

Reach for me
Don't wanna wait another day without you
Take me to higher ground
We'll be safe and sound

Come on, reach for me
I can't wait another day without you
Take me to higher ground
We'll be safe and sound
Reach for me
