

Turn My Motor On

Kirsty MacColl

When we make love you know it feels so fine
Any way you want it baby I don't mind
Anything you do you know I can't complain
Come and kiss me honey, here I go again
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
When we have fun you it feels alright
Wanna see you morning, afternoon and night
I don't care where, you know I don't mind when
Just arouse my interest, here I go again
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
We're all alone now now baby please don't hide
Come on over here, I'm gonna swallow your pride
Don't act cool now baby, try romance
It ain't every day that you get a chance like this baby
You don't have to catch me, I ain't on the run
Who wants your brain, your body's too much fun
Just keep on smiling, you ain't in no pain
Move a little closer, here I go again
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
I get a kind of power, don't know where it's from
Oooo babe you turn my motor on
Oohoo you turn my motor on
Oohooohoo you turn my motor on
