

# It All Began With a Burst

Kishi Bashi

"kesa ka ni sasareta"

and the source was your laughter  
threw me off the wall  
used your face as a mascot  
and the medicine came after  
left in a sprawl  
many miles from Cessna

"kesa ka ni sasareta"

one of many in the mess hall  
family there and all  
making money on the desktop  
was at war with fast cars  
many chemicals in the eyes of The Master  
Burst!  
(master in every way)

"kesa ka ni sasareta"

for the love of the soft game  
made of models set in plaster  
when in doubt of the last year  
gather all your fear and  
dip your hand in the blender / Burst!  
In your wallet was your gender  
stolen when in Rome  
in the shadow of your blender  
was a secret of the bedroom  
blemish in the chrome  
in the eye of the blender

("chiku")

"kesa ka ni sasareta"

It All Began With Burst now  
every several months  
and the chemicals came after  
it was a race to be faster  
quicker than the worst  
in the style of The Master
