

## Philosophize In It! Chemicalize With It!

Kishi Bashi

And if you fly into the sky  
And if your body is a penny and I'm  
Ready to throw it in the fountain of my many memories  
And if you push it I will take you off the line  
Philosophize in it! Chemicalize with it!

I fell in love you the only way I know  
I went for many miles until I couldn't go  
Concerned but anyways  
I didn't even know about you and me

I made a guess about your craziness and no  
I didn't think about how many boys you've been with before  
Concerned but anyways  
I love everything about you

And if your body is a penny and I'm  
Ready to throw it in the fountain of my many memories  
And if you push it I will take you off the line  
Philosophize in it! Chemicalize with it!

Picture our wedding it'd be summer sour and summer sweet  
We'd paint the ceiling red, we'd go to the Greek and straight t  
o the street  
Concerned but never bleak  
We'd find the day about you and me  
And with our eyes we shall see

Between you and me  
Who's crazier for the other one?  
It's me, it's you, it's me, it's you

And if your body is a penny and I'm  
Ready to throw it in the fountain of my many memories  
And if you push it I will take you off the line  
Philosophize in it! Chemicalize with it!
