

# Say Yeah

Kishi Bashi

If I really wanted to  
I'll be waiting for you  
Yes, I really want you too  
Say yeah

If I was in love with you  
We'll laugh away we two  
It's so hard to know it's true  
Say yeah

If I will be with you  
That's enough to get me through  
I will make it up to you  
Say yeah

On the very day we're through  
We would have to say it's true  
That I really want you too  
Say yeah

[Chorus]  
All I want is one last chance as your lover  
Baby, we'll make it together  
One last chance for each other

If I really love you  
I'll be waiting for you  
Cause I really want you too  
Say yeah

All I want is one last chance as your lover  
Baby, we'll make it together  
One last chance for each other  
Baby, again

All I want is one last chance as your lover  
Baby, we'll make it together  
One last chance for each other  
In the rain

All I want is one last chance as your lover...
