

College Film

Kiss Kiss

And I smiled from the scars
The tramps in the park
Are going to shoot me
But I'm ready

Kneel to bleed
Fast to your knees
In a movie
Dark loved me

Open with death
A life that is well
And you're floating
Are you drowning?

Kneel to bleed
Fast to your knees
In a movie
Dark loved me

Oh, now you know it's not worth your time
Buy your college film
It's worth a shot

You panned it up
And left and right
It was good enough for me

Now you know it's not worth your time
Buy your college film
It's worth a shot

You panned it up
And left and right
It was good enough for me

She walks in disguise
The tramps in the park
Oh, they shoot me
But I'm ready

Oh, you kneel to bleed
So fast to your knees
In a movie
Dark loved me
