

All the Way

Kiss

One, two, three, four

You've got a lot to say
Every night and every sunny day
It's the same thing you've been sayin' to me
Every day

You say it's within your heart
You keep repeatin' that we'll never part
I'm so finally glad to hear you stop
For a day

You just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way

You're wearin' clothes that fit you well
Baby, baby, you're not hard to sell
I'll tell you what you want to hear
For a day

So if you think you need advice
Just come to me, don't compromise
Baby, baby you're hypnotized
Every day

And you just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way

Yes, you just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way

Yes, you just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way

You just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way

You just keep talkin' louder
Complain to your mother and father
One of these days you'll push me all the way
