

Almost Human

Kiss

Ahh, ha

I'm almost human, can't help feelin' strange
The moon is out, I think I'm gonna change

You're so smooth and tender, a living, breathing dream
I've got to have you, baby, I'm listenin' for your scream

I'm almost human, I'm almost a man
I'm almost human, ooh

I'm almost human, baby please don't run away
'Cause wherever you run, I'll be a scream away

I'm very hungry and you're what I'm thinkin' of
Ooh baby, baby, baby, so hungry for your love

I'm almost human, oh, almost a man
I'm almost human, whoo

I'm very hungry and you're what I'm thinkin' of
Ooh baby, baby, baby, so hungry for your love

I'm almost human, I'm almost a man
I'm almost human, I'm almost human
I'm almost human, I'm almost human
I'm almost human, almost, almost, almost a man
I'm almost human
Almost, almost, almost, almost, almost, almost human
I'm almost human, I'm almost human
I'm almost human, almost a man
I'm almost human, almost, almost, almost
I'm almost human
