

# Anything for My Baby

Kiss

Anything for my baby  
I would steal anything for my baby  
I'd wheel and deal anything for my baby  
Oh

I'm in love and it feels so good  
'Cause I need her  
Don't mistreat her  
And I tell her so

When I saw her and she looked my way  
I was lonely  
She's my only  
And I've gotta say

That I would steal anything for my baby  
I'd wheel and deal anything for my baby  
Crawl or kneel, anything for my baby

In the morning when I raise my head  
She's beside me  
She can hide me  
When I'm feelin' low

If I'm thinkin' everything's all wrong  
My girl shakes me  
She awakes me  
Then I really know

That I would steal anything for my baby  
I'd wheel and deal anything for my baby  
Crawl or kneel, anything for my baby

Don't you know that  
I would steal anything for my baby  
I would wheel and deal anything for my baby  
I would crawl or kneel, anything for my baby  
I'd do anything

I would give anything for my baby  
I would die or live, anything for my baby  
I would t-t-t-take or give anything for my baby

Yes, I would take anything for my baby  
I would build or break anything for my baby  
I would rob or take anything for my baby  
I would do anything for my baby

I would steal anything for my baby  
I would wheel and deal
