Good Girl Gone Bad

It ain't love, but it ain't so bad She ain't nothin' like you ever had Face of a woman, hands of a child, yeah Been a long time comin', now she's goin' wild

Well I know she ain't the girl next door She ain't the girl she was before

She's a good girl gone bad, one kiss can drive me mad Good girl - come on - show me the way

The girl can't help it, she's out of control I gotta have her, she's so hot to hold, yeah She's gettin' her way, but I'm havin' my fun Steamin' up the window with the radio on

She ain't searchin', she knows the score, it ain't love she's lookin' for But now she's gone too far, she found love in the back of my car She's a good girl gone bad, one kiss can drive me mad Good girl - come on - show me the way She's a good girl gone bad, the best love I ever had Good girl - come on - take me away, oh, take me away, take me away She ain't searchin', she knows the score, it ain't love she's lookin' for But now she's gone too far, I know

She's a good girl gone bad, one kiss can drive me mad Good girl, come on, show me the way She's a good girl gone bad, the best love I ever had Good girl, come on, take me away
