

Keep Me Comin'

Kiss

I know what you're like
You're not sleepin' at night
I know you're losing control
I know your plans

Where you're keeping your hands
I know it's taking its toll
Sweet little innocent girl
Making your way in this world

Something you're feeling tonight
Tells you what's wrong and what's right
You gotta keep me comin' (keep me comin')
Keep me comin' (keep me comin')

You gotta keep me comin' (keep me comin')
Keep me comin' babe (keep me comin')
Hands on my shoulders now
You're getting bolder

Your fears are slipping away
Each little bite lets me know that you're ripe
You're thinking maybe you'll stay
Now that you're burning to know

How far you're willing to go
Now that it's under your skin
Now that you're lettin' me in
You gotta keep me comin'...

Ooh yeah, comin', comin'
Ooh yeah, right here, right now
You gotta keep me comin'...
