

# She's So European

Kiss

She walked in like a lady  
With a glass of pink champagne  
I wouldn't look if you paid me  
'Cause to me she's still the same

Well you oughtta see her  
Wearin' her heart on her sleeves  
You'd never believe her  
She's got a well-planned look in her eyes

She's so European  
She's one of a kind, one of a kind  
She's so European  
She's one of a kind, all in her mind  
She's so European, I found out today

She still speaks with an accent  
From a week in San Tropez  
She makes love on her brass bed  
'Cause her parents are still away

Well you oughtta see her  
Countin' the stars in her eyes  
You'd never believe her  
She's got a well-planned coverless smile

She's so European  
She's one of a kind, all in her mind  
She's so European  
She's one of a kind, all in her mind  
She's so European, she told me today

I wanna hold her tight all through the night  
I must be dreamin'  
I wanna take my time, she's so refined  
Is that her screamin'

When she looks in your eyes  
You see through her disguise, yeah

She's so European, she's so European  
One of a kind, out of her mind

[(She's so European)] She's outta her mind  
[(She's so European)] Yeah  
[(She's so European)] Oh yeah  
[(She's so European) (She's so European) (She's so European) (She's so European) (She's so European)]
