

## Interlude

Kisschasy

It's time to show your colours  
in this shade of green and blue are you  
I missed the raining summer  
it was taken from me all too soon

I walked away  
to show yourself to you  
go to the place  
that helps my mind get through

I walked away  
to show yourself to you  
go to the place  
that helps my mind get through
