

## Lone Skye

Kisschasy

I went out last night to a place where  
The beautiful give death stares  
So cold, you can feel the ice form on your bones  
Dressed up like you're in a movie  
Your effort is amusing, tonight  
But you'd look better if I was blind

Didn't you enjoy yourself?  
They held you up and put us down  
Let me know the next time you'll be here  
So I can stay home

You're living like you're on TV  
Like a protected species  
Uh-oh, I would love to see you when you're old  
Just like winter roses in bloom  
I'll die before I'm like you  
In time, they will all know just how hard you tired

Didn't you enjoy yourself  
They held you up and put us down  
Let me know the next time you'll be here  
So I can stay home

Didn't you enjoy yourself  
They held you up and put us down  
Let me know the next time you'll be here  
So I can stay home

So I can stay home

Stay there forever in your place  
Where your friends are kinder to your face  
Your clothes are all you have  
And I'm sorry that your life's that bad

Stay there forever in your place  
Where your friends are kinder to your face  
Glamour is all you have  
And I'm sorry that your life's that, I said,  
You'll be here, so I can stay home
