

Out in the Rain

Kissin' Dynamite

Your tears are runnin' - runnin' down like a waterfall
I'm sittin' here but - I don't know what you want at all
What did I tell you - tell me what have I done to you?
What happened to my girl?

You said "your girl" - your girl has to leave this place
Another tear is - running down through your beauty face
A very last kiss - shut my eyes but you shut the door
To leave me here behind - but girl just keep in mind

Out in the rain - where all the streets have no name
Out in the dark - you will be lost and apart
But if you run away with a desperate heart
You will stand alone again

Out in the rain
Out in the rain
Out in the rain
Will you never - ever - come back again

My eyes are starin' -- straight ahead in an empty room
Somethin is tellin' - telli' me that you'll come back soon
Knock on my door - find my way to your home again
I know you're missing me - but I don't want you to be...

Out in the rain - where all the streets have no name
Out in the dark - you will be lost and apart
But if you run away with a desperate heart
You will stand alone again

Out in the rain - where all the streets have no name
Out in the dark - you will be lost and apart
But if you run away with a desperate heart
You will stand alone again

Out in the rain
Out in the rain
Out in the rain
Will you never - ever - come back again
