

Run For Your Life

Kissin' Dynamite

You broke my dreams, I went insane
You stole my thoughts, you fucked my brain
All night long, all night long.

You drank my blood, my veins ran dry
You made my hell, I had to die
All night long, all night long.

Payback - each attack builds up my force
Payback - I revenge without remorse

You better run, run, run for your life
You better run away.
Run, run, run for your life
It's time for you to pay
It's time for judgement day.

I have endured the pain too long
You gave your best but I was strong
All night long, all night long.

The tide has turned, I'm hunting for you
I wish you pain, It's overdue
All night long, all night long.
