

# Agreement

Kitaro

Watching the world from our window of life  
Can we see all there is that is real, that is right?  
To the distance so far from our true understanding  
Making us want more, making us see less

The fire  
Making me clean, making me fly  
Spinning me 'round and 'round  
Spinning me 'round

The fire within your eyes  
This mystic time I've known before  
Once before the flame within my heart  
Agreements made are now realized like before

Speaking of worlds driven far, far apart  
How the innocence crushes the nature of things  
To the point that we lose all we're trying to gain  
Making us want more, making us see less

The fire  
Making us clean, making us fly  
Spinning us 'round and 'round  
Spinning us 'round

The fire within your eyes  
This mystic time I've known before  
Once before the flame within my heart  
Agreements made are now realized like before

The fire  
Making us clean, making us fly  
Spinning us 'round and 'round  
Spinning us 'round

The flame  
Making us clean, making me fly  
Spinning me 'round and 'round  
Spinning me 'round

Agreements of trust  
Under the power of love we see  
Agreements of faith  
Under the power of love we know  
Agreements of truth  
Under the power of love we feel  
Agreements of love  
Under the power of love we see

Agreements of liberty  
Under the power of love we know  
Agreements to set you free  
Under the power of love we feel  
Agreements of trust  
Under the power of love we see  
Agreements of faith  
Under the power of love we know

Agreements of truth
