Kitten

I like the Downtown girls
I like the way that they talk to me
I like the messed up girls
They're pretty good company
I like the way that you walk
And maybe tonight, I can make you mine
And if it's all right, we can dance in the white light
In the white light
In the white light, oh
In the white light

I got the punk rock love
Feels like it's 1963
And the girls all dance
While I'm feeling like a refugee
I want to take you home
And maybe tonight, I can make you mine
And if it's all right, we can dance in the white light
In the white light, oh
In the white light, oh
In the white light

Maybe I'm crazy, crazy
Maybe I've got no guarantee
But I've been thinking lately
I'm going to let it be a dream
Baby dream
Baby dream
Baby dream

I want to take you home
Maybe tonight, I can make you mine
And if it's all right,
We can dance,
We can dance,
We can dance,
And come together in the white light

In the white light, oh
In the white light, oh
In the white light, oh
In the white light, oh
In the white light, oh
In the white light, oh
In the white light
