

Bloody Lovesong

Kitty in a Casket

All these times you fallowed me
you were there, but I couldn't see
Watched my while I dreamed
Now I know what it means

Being a creature of the night
Soon I'll start to fight
never again see daylight
But I guess that's allright

Alllthough I'll die
You never see me cry
..Cause the night belongs to me

(you gotta)
Hold me tight
Before you take my life
I'll be like you, you'll be like me
In the night

(you gotta)
Hold me tight
Before you take my life
I'll be like you, you'll be like me
oh darling can't you see?

You and me for eternity
That's how undead life should be
Fullfilling our sickest dreams
While haunting for new victims

You are my wildest phantasy
How could this happen to me
It's your bloody kiss
I never want to miss

I am not dead
And I'm not alive
But still the night belongs to me

Chorous

This bloody lovesong

Chorus

(you)
Kissed my right
When you took my life
I am like you, you are like me
For eternity
Kissed me right
When you tool my lfe
This bloody lovesong
Is just for you
Just for you
