

Beside You

Kitty Wells

Beside you forever I'm thankful each day that you picked me for
your own

Your love and devotion changed my life beside you I couldn't go
on

Beside you darling life's one happy dream you've brought a new
world to my heart

My life was empty before I met you beside you till death do we
part

Beside you proudly we'll walk down the isle to start a new worl
d for us two

The love we share will grow through the years for this happines
s I all owe to you

Beside you darling life's one happy dream...
