

# Hello There Sweet Man

Kitty Wells

Got my prettiest dress on my hair in the latest style  
Waitin' for his knock on the door my heart is running wild  
Only people who are in love can really understand  
How I feel until I say hello there sweet man  
Hello there sweet man here's a kiss to let you know  
That no one else can take your place I love you so  
We can make the right spots or walk hand in hand  
I'm so happy just being with you hello there sweet man

My blues go out the window when he comes in the door  
Lonely nights and blue days come around no more  
When I'm in your arms the whole world is grand  
Walk around on cloud line hello there sweet man  
Hello there sweet man
