

## I Can't Help Wondering

Kitty Wells

I can't help wondering who's holding you tight  
I went to see a movie to try and lose my blues  
But I got so lonesome I just couldn't see it through  
Cause I can't help wondering where you are tonight  
And I can't help wondering who's holding you tight  
I stood out on the corner the rain was falling slow  
I turned my collar up on my coat and walked on down the road
