

I Guess I'll Go On Dreaming

Kitty Wells

You tell me you are leaving you don't love me anymore
All my pleading then my ever thought in vain
Well I guess you found another or you just got tired of me
Then I guess I'll go on dreaming just the same

When you hold her in your arms and you smile into her eyes
Will you let our past run in your mind again
But if you are satisfied with another by your side
Then I guess I'll go on dreaming just the same

If by chance your friends should leave you and you'll wander al
l alone
In my heart I'd gladly take you back again
If you're married happily live in wealth and luxury
Then I guess I'll go on dreaming just the same

After time has told its story and the grey hair streak your hai
r
And no longer in your heart I'm to blame
Even after death has called you from this wicked world of sin
Then I guess I'll go on dreaming just the same
