

# It Was Waiting To Happen

Kitty Wells

It was waiting to happen the love I dreamed would end up gloom  
It was waiting to happen like a lovely rose that waits to bloom  
When you held me and kissed me I found the love that was true  
It was waiting to happen and it happened when I found you

I'm confessing there were others whose arms have held me tight  
There were temporary lovers who eased my lonely nights  
But I never gave my heart away for I knew there must be  
Love my heart had always hungered for waiting somewhere for me  
It was waiting to happen
