

# Love Makes The World Go Around

Kitty Wells

Love makes the world go around, around, around  
Nothing could take its place has been found  
Love makes people happy, from a king to a clown  
Oh yes, love makes the world go around

I know a man, now he's old  
Spent his all life courting silver and gold  
Money was, he's the richest man in town  
Inside his lonely mansion no love can be found

Love makes the world go around, around, around  
Nothing could take its place has been found  
Love makes people happy, from a king to a clown  
Oh yes, love makes the world go around

Remember the tragedy of a great movie star  
She brought joy to millions was worshiped from apart  
It seems she had everything was gifted from above  
Yet took her own life, she had everything but love

Love makes the world go around, around, around  
Nothing could take its place has been found  
Love makes people happy, from a king to a clown  
Oh yes, love makes the world go around  
Yes, love makes the world go around
