

My Heart Echoes

Kitty Wells

(My heart echoes it back to me)
There's an emptiness tonight
There's a longing in my heart
For your tender loving smile
And sweet caress

Oh, if you could only see
What you're leaving did to me
You would come back
Dear and fill this loneliness

My heart echoes now that you're gone
Dear, my heart echoes with misery
Though you told me that we were through
Dear, my heart echoes it back to me

Though you said that we were through
I'll be waiting here for you
As I have, dear
Ever since we've been apart

I know, dear, that I was wrong
Without you, I can't go on
For you're always
In the echo of my heart

My heart echoes now that you're gone
Dear, my heart echoes with misery
Though you told me that we were through
Dear, my heart echoes it back to me
