

## Old Records

Kitty Wells

Old records bring back memories pictures bring back tears  
Do you ever think of me after all these years  
I found a stack of old records that we used to listen to  
And there beside the records were pictures of me and you  
So I dusted off the records and played them one more time  
I listened and looked at the pictures and almost lost my mind  
Cause old records bring back

Like the songs on the records we were a big hit of yesterday  
And when you held me in the pictures I didn't know I didn't know  
you'd fade away  
But old records bring back
