

## Searching

Kitty Wells

Searching, I've spent a lifetime darling searching  
Looking for someone like you  
Dreaming, in all my dreams I dream  
That someday I'd find someone like you

Other loves have come my way  
But they were not for me  
Tell me that you're here to stay  
Don't ever set me free

'Cause I've been searching  
I've spent a lifetime darling, searching  
Looking for someone just like you

Other loves have come my way  
But they were not for me  
Tell me that you're here to stay  
Don't ever set me free

'Cause I've been searching  
I've spent a lifetime darling, searching  
Looking for someone just like you
