

Singing His Praise

Kitty Wells

Since my soul has been redeemed since from sin I may get gleamed

I'm singing his praise along the way

From my sins he sets me free when I'm sad he comforts me

I'm singing his praise along the way

(Happy his praise I'd gladly sing serving him now my Saviour king)

Oh hallelujah I'm singing his praise along the way

Come my friends and go with me someday soon my Lord I'll see

I'm singing his praise along the way

If you call on by today he will not turn you away

I'm singing his praise along the way

(Happy his praise...)

While down here on earth below I keep singing as I go

I'm singing his praise along the way

When life here for me shall end up in heaven it'll just begin

I'm singing his praise along the way

(Happy his praise...)

I'm singing his praise along the way
