

Unloved Unwanted

Kitty Wells

Unloved, unwanted, I've never been so blue
I know that I should leave but I don't want to
Unloved, unwanted, is the life I live with you
I know that I should leave but I don't want to

You have my name, you wear my ring
I remember when our love was real
You're in his arms, he has your heart
Are you happy with the kisses that you steal?

Unloved, unwanted, I've never been so blue
I know that I should leave but I don't want to

You have my name, you wear my ring
I remember when our love was real
You're in his arms, he has your heart
Are you happy with the kisses that you steal?
