We Missed You

Kitty Wells

We missed you and we're glad you'll come home The hours were never so lonely, my eyes were never so strange From watching and waiting and crying for you And hoping you'd come back again

Me and my heart and my lips and my arms We missed you each day you were gone Me and my heart and my lips and my arms We missed you and we're glad you'll come home

A hope against hope you still love me There were so many memories I care And though you had gone many miles from my side My love followed you every step

Me and my heart and my lips and my arms We missed you each day you were gone Me and my heart and my lips and my arms We missed you and we're glad you'll come home
