

## Leaves

Kivimetsän Druidi

I close your eyes with my mouth  
Now you don't see anything  
But you feel my breath all over  
I can feel you too  
Although I don't really know you  
I don't really care  
Cry with me, make my day  
Tomorrow all will be gone  
All the sweetness and all the fun  
No, I don't wanna know...  
Although I don't really know you  
I don't really care  
Now that you're gone I don't know  
How to really feel inside  
Baring the hope to see you again  
I guess I never will  
Now that I do really know you  
Yes, I really care!
