

# All the Right Things

Kix

I was thinking I'm getting my way  
As she reached down and touched my leg  
I wanted her to take me all the way  
But she took an eternity

We were talkin' and laughin' all night long  
Back seat of my Chevrolet  
Slowly blew me away

She does all the right things to me  
As we kiss breathlessly  
She does all the right things to me  
She does all the right things to me  
I'm falling in love helplessly  
She does all the right things to me

We wind up kissing at the county line  
She says I'm yours and you'll be mine  
I feel my jeans getting a little bit tighter  
Windows steaming getting hot tonight

We were talkin' and laughin' all night long  
Back seat of my Chevrolet  
Slowly blew me away

She does all the right things to me  
As we kiss breathlessly  
She does all the right things to me  
She does all the right things to me  
I'm falling in love helplessly  
She does all the right things to me

In my back seat with the Jack and the beer  
I died as she whispered  
'I love you' in my ear

She does all the right things to me  
As we kiss breathlessly  
She does all the right things to me  
She does all the right things to me  
I'm falling in love helplessly  
She does all the right things to me
