Baby Time Bomb

Ooh, she was a ticking time bomb Time bomb ready to blow All the girls were charmed for so long To find out what they didn't know

I took them to the Kasbah I took them to my room I gave her a lick that made her tick She went crash bang boom

Baby time bomb Shake shakin' the ground Baby time bomb I'm going down

I can't wait To feel her detonate Baby time bomb Tick tickin' away

She was the goddess Venus Ooh, my baby come to life I had the power to dream it I said, baby, let it be tonight

Countdown to explosion Take me to your wonderland Took a walk she was a fireball She said a wham bam slam Bang bang

Baby time bomb Shake, shakin' the ground Baby time bomb I'm going down

Leave me alone In my blasting zone With my baby time bomb Tick tickin' away
