

Cold Blood

Kix

Cruisin' downtown, shakin' her love
See that babe talkin' to me
Felt my heart drop, women can't stop
Girl has got me on my knees

Baby, baby, babe, don't make me wonder
Won't you let me in?
She said, "See you later"
Shot down, I'll be back again

Good love is all you need
But you don't wanna know
Cold blood is all you bleed

When it cools off, you tease it
When it gets hot, you freeze it
Cold blood is all you bleed

Dresses so tight, movin' to the beat
Set my fuse on fire
Dream come true I wanna give it to you
Let the flame get higher

Baby, baby, you're drivin' me crazy
Like a cat in a cage
You make me shiver, earthquake
Down, down to the grave

Good love is all you need
But you don't wanna know
Cold blood is all you bleed

When it cools off, you tease it
When it gets hot, you freeze it
Cold blood is all you bleed

You make me so hot
I feel my temperature rise
Don't shoot me down, no

When it cools off, you tease it
When it gets hot, you freeze it
Cold blood is all you bleed

Good love is all you need
But you don't wanna know
Cold blood is all you bleed

Cold blood is all you bleed
Cold blood is all you bleed
